Join us for this grand Book Reading adventure. It can change your life!

The Book Club will meet the first Tuesday of each month for discussion of the reading.

Coming to Charnock?

There really is no other Bible College or Seminary like CIB. Translating the entire Bible for yourself has only been accomplished by very few people in the last 2000 years. Jerome and Luther are the two that come to mind. Translation simply can never communicate perfectly what the original audience was hearing; or what the original author was saying. Typically a Bible College or Seminary will ready its students to use the technical tools needed to grind out an accurate translation. -

- Our own Joel Lebet is returning from Indonesia where he taught in the Bible College there.
- Our own Jeanie Stout will soon be in Myanmar to serve as a Translation Consultant with Missionaries. She will help them check their translation directly with the Greek and Hebrew Bible.
- Your support of White Stone Missions will help men and women fluent in Hebrew and Greek get to the Mission Field to assist translators directly. This moves the translation process along very quickly. Assist us in removing years from the process!

ESPAÑOL

CIB in Español

Classes offered in Spanish (Español) are now available at the Ontario/Payette Campus. Presently THE KNOWING GOD PROGRAM is available in Spanish. This is our primary program for first year students. In addition there are several other classes available:

- Hebrew Grammar & Reading

ESPAÑOL

- Discipleship I and II
- Systematic Theology I and II
- Bios of Great Christians
- Old & New Testament Introductions

Please pray for this program and God's blessing on it. Hispanic students will add a needed element to the CIB world.

However, true translation involves much more. Being a technical translator does not mean that one can actually read the Greek or Hebrew text. It simply means one can use the tools. But true understanding requires a reading ability like one reads in his native language. Greek and Hebrew are not English! In fact they are nothing like English! Students have told us that they were told that they do not need the Languages of the Bible. That translations have come so far now that there is really no need for further study in this area. They reject this view as amazingly ignorant in the first week; because Ignorant It Is! This makes their Bible Study truly INDUCTIVE from the original languages themselves. This causes many problem passages to disappear. It causes them to see the actual Biblical words in their actual context so they can observe word meanings for themselves, rather than looking them up in a Lexicon with absolutely no context to help them.

Another CIB distinctive is a complete reading of the Ante-Nicene Fathers. The title simply means the Early Church Writers up to the Council at Nice in a.d. 325. Students spend three years getting through these at about 60 pages a week. They attend classes each week to discuss their

findings. This also creates an INDUCTIVE education. After all, no one is telling them what the early Church wrote, taught and believed; they are reading this for themselves. There is no competent text out there that can give them this! All of the materials must be read. Then discussion in class helps everyone polish their perspectives. This is an amazing journey! By the way, we do not teach a specific class in Systematically Theology at CIB. The Early Church Writings ARE the Systematic Theology! Though modern terminology may not be found there, neither will the Early Church's Theology be found here. Come see for yourself.

These items above are the reason for the creation of Charnock Institute of the Bible. A New Venture, A New Curriculum, A New Education unlike any known before. Students beginning their Ministries with a Biblical Foundation like no other rather than spending a lifetime in ministry trying to figure out what the Greek and Hebrew actually mean, and which Doctrines are new and which are actually old.

Invariably those who look at CIB are amazed. Those from the finest Educational Institutions in existence have

informed us that they have never seen or even heard of the kind of education at CIB going on anywhere else.
